

## Dabouki B

### Name of vine variety in France

Dabouki

### Origin

This table grape vine variety of natural origin is wide spread throughout the Middle East.

### Synonymy

No synonym is officially recognized in France, nor in other countries in the European Union.

### Regulations

In France, Dabouki B is officially listed in the "Catalogue of vine varieties". This variety is likewise listed in the Catalogues of the European Union member countries: Spain and Portugal.

### Use

Table grape variety

### Evolution of area under vines in France

	1958	1968	1979	1988	2000	2008	2016
ha	23	56	202	101	20	17	7.2

### Description

Identification signs include:

- the tip of the young shoot has a heavy coat of flat-lying hairs,
- the young leaves are bronze or reddish in color,
- adult leaves are large and orbicular shaped, 5, 7 or over 7 lobes with a slightly open petiolar sinus or closed and U-shaped, U-shaped or flat lateral sinuses, large teeth, moderate length compared to width at base, straight or convex sides, heavy pigmentation of veins, a strongly bubbled leaf blade, upturned and the underside with a moderate to heavy coat of upright and flat-lying hairs,
- elliptical-shaped berries.

## Genetic profile

Microsatellite	VVS2	VVMD5	VVMD7	VVMD27	VRZAG62	VRZAG79	VVMD25	VVMD28	VVMD32
Allel 1	133	232	247	176	188	248	240	257	249
Allel 2	149	234	249	180	204	248	244	257	271

## Phenology

Bud burst: 12 days after Chasselas.  
Grape maturity: period III, 5 weeks after Chasselas.

## Suitability for cultivation and agronomic production

Dabouki B is a vigorous variety with horizontal growth. Its production potential is average. It can be managed with short pruning or moderate long pruning. Dabouki B resists well against drought and is not very affected by coulure and to millerandage.

## Sensitivity to diseases and pests

Under humid weather conditions, Dabouki B is prone to downy mildew, powdery mildew and to grey rot.

## Technological potential

Grape clusters are large to very large and moderately compact. The berries are likewise very large with a thick skin and a simple flavor fleshy pulp. This variety is suited for conservation and travels well.

## Clonal selection in France

The only approved Dabouki B clone carries the number 1103.
