

Gamaret N

Name of vine variety in France

Gamaret

Origin

This variety was obtained in 1970 at the Changins station in Switzerland and is the result of the crossbreeding between Gamay N and Reichensteiner B.

Synonymy

Regulations

In France, Gamaret N is officially listed in the "Catalogue of vine varieties".

This variety is likewise listed in the Catalogue of Italy.

Use

Wine grape variety.

Evolution of area under vines in France

Description

Identification signs include:

- the tips of the young shoots are densely covered with flat-lying hairs,
- young leaves are green or yellow,
- orbicular or wedge-shaped adult leaves, whole or 3 or 5-lobed with an open or slightly open V-shaped petiolar sinus; small short teeth with straight sides, absence of anthocyanin coloration of veins, slightly bubbled leaf blade; underside is slightly covered with flat-lying hairs,
- round-shaped or slightly elliptical-shaped berries.

Genetic profile

Microsatellite	VVS2	VVMD5	VVMD7	VVMD27	VRZAG62	VRZAG79	VVMD25	VVMD28	VVMD32
Allel 1	131	225	239	178	194	242	238	216	239
Allel 2	149	232	257	178	194	260	248	247	263

Phenology

Bud burst: 2 days after Chasselas. Grape maturity: period II, 2 weeks after Chasselas.

Suitability for cultivation and agronomic production

Gamaret N is a fairly vigorous variety, steady fertility with semi-erect to horizontal growth. Short pruning is preferred and this variety must be trained. Somewhat susceptible to drought and under conditions susceptible to water stress. The choice of rootstock must be taken into account.

Sensitivity to diseases and pests

Gamaret N is not very susceptible to grey rot, but on the other hand is a little sensitive to downy and powdery mildew.

Technological potential

Gamaret N clusters are small to medium size and low to medium compactness. The berries are likewise small to medium size. Sugar accumulation potential is moderate to good for medium acidity. Gamaret is well adapted for whole grape wine making and at full ripeness this vine variety produces balanced, reserve quality wine and is well appreciated for its color and structure.

Clonal selection in France

The only approved Gamaret N clone carries the number 1117.
