Phenology

Bud burst: 1 day after Chasselas.
Grape maturity: period II, 3 weeks after Chasselas.

Suitability for cultivation and agronomic production

This vine variety is fairly productive but has grape clusters which are not very compact.

Sensitivity to diseases and pests

Raffiat de Moncade B is not very susceptible to powdery mildew.

Technological potential

Grape clusters are small to moderate and the berries are very small. Raffiat de Moncade B produces fairly neutral wines which are warm and lively.

Clonal selection in France

The only approved Raffiat de Moncade B clone carries the number 465.
