

## Einset seedless Rs

### Name of the variety in France

Einset seedless

### Origin

Einset seedless was obtained by George Remaily (United States of America). This interspecific hybrid results from the crossbreeding of Fredonia (*Vitis labrusca* – *Vitis vinifera*) and Canner seedless.

### Synonyms

This variety could be found under its hybridizer code "NY 63-878-1" but this synonym was not retained in the official texts.

### Legal information

In France, Einset seedless is officially listed in the "Catalogue of vine varieties" since 2021 on the A list.

### Use

Table grape variety.
