

## Léon Millot N

### Name of the variety in France

Léon Millot

### Origin

Léon Millot (an interspecific hybrid) is the result of the crossbreeding between a 101-14 MGt rootstock seedling and Goldriesling.

### Synonyms

In France, this variety can officially be called "194-2 Kuhlmann" regarding plant propagation material.

### Legal information

In France, Léon Millot is officially listed in the "Catalogue of vine varieties" on the A list and classified. This variety is also listed in the catalogues of other Member States of the European Union: Denmark, Netherlands and Sweden.

### Use

Wine grape variety.

### Evolution of cultivated areas in France

	1958	1968	2000	2008	2018
ha	271	215	123	97	64

### Descriptive elements

The identification is based on:

- the tip of the young shoot with a medium density of prostate hairs,
- the green young leaves,
- the circular or wedge-shaped entire adult leaves, with a slightly open U-shaped petiole sinus, medium teeth with convex sides, an involute slightly gofferred leaf blade near the petiole sinus, and on the lower side of the leaves, a low density of erect hairs on veins,
- the round-shaped berries.

## Genetic profile

Microsatellite	VVS2	VVMD5	VVMD7	VVMD27	VRZAG62	VRZAG79	VVMD25	VVMD28	VVMD32
Allel 1	122	223	239	178	180	246	238	214	271
Allel 2	149	263	255	183	194	256	254	227	271

## Phenology

Bud burst: 1 day before Chasselas.

Grape maturity: very early season, 1 week and a half before Chasselas.

## Suitability for cultivation and agronomic production

Léon Millot is vigorous with a horizontal bearing and must be pruned long.

## Susceptibility to diseases and pests

Léon Millot resists well against downy mildew but is slightly susceptible to powdery mildew.

## Technological potentiality

The bunches are small to medium in size, not very compact and the berries are also small to medium in size. The sugar accumulation potential is good. Léon Millot produces acceptable quality wines, with diglucoside anthocyanins.

## Clonal selection in France

There is no certified clone for this variety yet.
